Chris, we cannot review and sign off on these plans this quickly. We will try to get you any comments we have tomorrow. However, Matt and I both have to be at the Board of Supervisors tomorrow for two items, including the Plains emergency permit, and are scheduled to stop by and see the status of the segment 4 and 5 work. We also need to coordinate the review with our grading inspector. I hope you understand this all takes more than a couple of hours at the end of the day to review these important plans. Dianne
